

Danny Lyda is a computer engineer by day and debate coach by night. In 2014, some friends introduced Danny to the world of Stoa speech and debate, and he was hooked. In 2016, he stepped up to coach the club Contend in Northern California. Danny's specialties are Lincoln Douglas Debate and Apologetics. He loves seeing his students use their skills to grow in their faith and become ambassadors for Christ, and he likes that debate teaches skills that apply to all areas of life. Danny has served on the Stoa Debate Committee since 2022.
